### Notes from the Lifestyle Director, Tricia Balan

"Lifestyle" is a popular word around Bridgewater. The dictionary defines lifestyle *as the particular way that a person or group lives and the values and ideas supported by that person or group.* From what I've seen and experienced throughout the holidays, the Bridgewater lifestyle is a community of caring and encouragement, a community with expectations and desires and a community of excellence. As we enter the New Year, I would like to provide you with more opportunities to achieve your lifestyle goals. So, Happy 2018! Please take this new year as a chance to advance in your health, a chance to make a new friend, a chance to develop a new talent. I am so happy to be here and to be your Lifestyle Director, and I am very enthusiastic for the upcoming events, that together with the Lifestyle Committee, we have planned for 2018.

### Beginning our 11<sup>th</sup> Year

by Sheila Giroux

Your Bridgewater BEACON is beginning the 11<sup>th</sup> year of publishing. Three original members of the staff are still working monthly to bring the news of the community to all of you. Dave and Donna Bogataj and I, have been working along with numerous other residents to bring the BEACON to you each month since December 2007. A big thank you to all the residents, past and present, who have contributed their time and talents to bring the news of Bridgewater to you and upcoming activities in our great community. We hope you will continue to read the BEACON each month (you can read it on-line or pick up your copy in the Lodge lobby kiosk) and thank you for your support in the past. Remember, guest writers are always welcome as are new staff reporters. If you are interested in joining us, please contact me, Sheila Giroux, at [jcsjt127@yahoo.com](mailto:jcsjt127@yahoo.com).

# Community Updates

by Ciara Carter

**Snow Removal**-A huge thank you to everyone who came out, during the storm, for our winter and budget meeting!

## **Please remember the following regarding our current snow removal contract.**

- Snow is only cleared after it reaches 2 inches.
  - Unfortunately, the contract does not include personal driveway ice removal.
  - Ice-melt is only placed in the Lodge parking lot (due to the heavy foot traffic) and intersections. Unfortunately, it is not placed on sidewalks, walking paths or driveways.
  - Due to the extensive size of the community, roads are cleared first, sidewalks and driveways are cleared second simultaneously, and the fronts of mailboxes are cleared last.
  - The contract does not stipulate that areas need to be cleared to bare pavement.**
  - We do not offer a priority list of homeowners who will be cleared first. All homeowners are cleared within their zone rotation.
  - Unfortunately, the community does not have special areas to push snow. Depending on the amount of snow we receive there will be snow mounds on grass that cannot be relocated.
- Thank you again for your patience as we continue to perfect the overall snow removal process!

## **Winter and Budget Meeting Highlights!**

### **Holiday Décor**

- Holiday décor should only be up and illuminated between Thanksgiving and January 11<sup>th</sup>.
- Holiday décor should only be placed on home, plant bed foliage nearest to front of home and private plant areas (kidney and circle areas) in back of home.
- Inflatables and inflatable décor is frowned upon
- No holiday décor should be placed anywhere within common areas (middle of lawn, boulevard trees, barrier trees in backyard etc.)
- Please be mindful that holiday décor does not obstruct snow removal in any way.
- Holiday décor should not block address sign on home. This could have fatal ramifications if EMS are looking for your home due to many addresses within the community not yet being listed on gps.

## **Snow Removal**

-Snow Removal will be completed this year by Brightview who are a nationwide company that has been in business 144 years and has handled landscape and/or snow removal services for many other Del Webb's throughout the United States. A complete listing of their other communities can be found on the Lodge corkboard.

-Snow removal will be completed using the drop and drag method. Drop and drag equipment is outfitted with rubber blades to reduce damage. They will also be using ride behind snow blowers, brush machinery, plows and shovels.

\*\*\*Please note: Last year snow removal was completed using snow blowers. This resulted in a much cleaner clearing, however, due to the size of the community many homes were not touched until over 72 hours which is unacceptable.

-Contract stipulates that they are on site within 2 hours of snow stopping to begin clearing and community must be cleared within 10 hours of snow stopping. There is a 5% price penalty that Brightview pays if the community is not cleared within the specified timeframe. (This will be received from our most recent snow storm.)

## **2018 Budget**

-Reserve funds at the end of 2018 are anticipated to be:

|         |           |      |
|---------|-----------|------|
| Master- | \$989,184 | 90%  |
| Sites-  | \$121,560 | 101% |
| Park-   | \$8,946   | 93%  |
| Villas- | \$207,166 | 96%  |
| Manors- | \$4,803   | 94%  |

Reserve levels are **very** good and exceed the state requirement in part thanks to the hard work of our volunteer Finance Committee.

The major expenses for 2018 are:

|                         |           |
|-------------------------|-----------|
| Water-                  | \$405,000 |
| Landscaping-            | \$611,500 |
| Snow Removal-           | \$150,000 |
| Irrigation Maintenance- | \$147,900 |

Anticipated total expenses for 2017- \$1.8 million  
Anticipated total income from assessments for 2017- \$1.6 million

Though Pulte is not required by State Law, they will typically pay the shortfall of the community so we can enjoy the benefits of a built-out community.

-The budget for 2018 was initially prepared by the Finance Committee but was changed by the Master

Board to include additional contract costs and balance the budget prior to transition.

**-To move closer to a balanced budget, assessments will increase by \$25 for 2018 making the monthly assessment amount \$280; Villas (attached condos) are \$376** to cover additional insurance, maintenance and reserve fund expenses.

-The community is almost 12 years old. As the community continues to age, there will be additional expenses for maintenance.

-The Finance Committee has projected the monthly assessments to be \$281 after transition to maintain the community without the assistance of Pulte.

\*This is based on continually controlling contract and maintenance costs. As operating costs increase it will be reflected in monthly assessments.

### **Snow shoveling – Safety tips for removing those 'less than 2-inch' snowfalls.**

Even for those who exercise regularly, shoveling snow is rigorous, physical work. According to the American Academy of Orthopedic Surgeons, shoveling is considered an intense activity that raises one's blood pressure and heart rate. Here are some tips for seniors, and others, for shoveling safely:

- **Dress appropriately.** Wearing layers will allow for adjustment to the temperature outside. Be sure to dress warmly enough and cover the head, face and hands when outside for prolonged periods of time.
- **Pick the right waterproof boots.** Protect feet from the cold and keep them dry with waterproof boots. Non-skid boots help guard against falls on slick snow or hidden ice.
- **Pick a small shovel.** Depending on how wet the snow is - a shovel full of snow can weigh up to 15 pounds! Selecting a smaller shovel means lighter loads of snow, which can help prevent injury to the body by creating less strain.
- **Stay hydrated.** Water plays an important role when people exercise in the summer or winter. Having a water bottle handy just inside the garage and taking a few sips after every 15 minutes of shoveling snow will help guard against dehydration.
- **Set a time limit.** Shoveling snow is hard work, so take a break after 20-30 minutes of shoveling

and resume after having rested.

- **Lift with the legs, not the back.** The legs have very strong muscle groups so make sure the legs carry the brunt of the lifting. Bend and straighten the knees when shoveling and make sure the back is not bending.
- **Push the snow.** It's easier to push the shovel full of snow instead of lifting and throwing the snow.
- **Separate the hands on the shovel.** Creating space between your hands can increase leverage on the shovel to make it easier.
- **Avoid caffeine and nicotine before shoveling.** Caffeine and nicotine act as stimulants to our bodies by increasing the heart rate and constricting blood vessels, which puts more strain on the heart.
- **Never shovel alone.** Let a spouse or neighbor know you will be shoveling. That way, if a person does get into trouble someone will be looking out and can call for help quickly.

**Another tip** - If the snow is light, powdery and less than 1 inch in depth a leaf blower has been known to clear steps, walkways, etc.

## Tips from ARC

*by Dave Bogataj*

The ARC would like to wish everyone in the Bridgewater community the best of this Holiday season. The community has many wonderful Unit lightings and decorations. With that said this is just a reminder that the decorations and lightings must be put away by January 11, 2018.

The ARC would like to also extend a thank you to the Bridgewater families for following the Design Guidelines. With all the Alt/Mod's submitted as requested, drawings of projects, answering design questions and contacting the committee member for final inspection, it has been a very successful year. We will be ready to do it again.

Finally, a thanks to my committee, Robbie Tremmel, Kathy Tinsley Galuszka, Dave Law, Mark Wheeler, Terry Bernard, Ciara Carter and Donna Sudek for the hundreds of hours of time they put in to make and keep Bridgewater the best place to live. If you have any questions dealing with projects, you can contact us through our email. [\*\*ARCbridgewater@gmail.com\*\*](mailto:ARCbridgewater@gmail.com)

## The Sales Center

by Marissa Haley

Happy New Year! What an exciting time of the year for everyone. The beginning of the year is a great time to set goals and fulfill new year's resolutions. One of the resolutions we have here at Bridgewater is to keep sales going strong as usual. We have a successful year behind us and cannot wait to start this new one off strong!

If you know someone who is looking to move to Bridgewater, send them to talk to us. Now is the best time to purchase to have delivery of a new beautiful home in June or July. We have a limited availability on private lots, so now is the time to act. Bridgewater also has a move-in ready home that is the Reflection model at 24262 Leelanau Lane. If you have a friend who is looking for a beautiful and spacious home with a lot of added options, please give me a call today. I am happy to show this home; my cell phone is 775-745-0355. We are very limited on the lots that will fit a Reflection floorplan as they are going quick!

And finally, a special thank you to all the current residents of Bridgewater for the continued support of Sales. We appreciate everyone who stops and introduces themselves to a new Buyer and tells them how great a place Bridgewater is to live.

## Thank You BW for Your Generosity

by Sue Shomsky

The Bridgewater collection drive for the **Bottomless Toy Chest** wrapped up on December 10<sup>th</sup>. Once again, the giving spirit of our Bridgewater neighbors was overwhelming, and we filled 8 large tubs with gifts to "lift the spirits and promote a positive state of mind in young cancer patients while they are going through treatment." Thank you for sharing your blessings with these kids!

## Focus on Fun...!!

by Dave Bogataj

Have you got a desire to do something? Well, being a part of the Bridgewater community makes this task much simpler. If you would look in the back pages of the BEACON each month, you will see a listing of all the clubs and groups you can join. They go from meeting once a month to meeting a couple times a week. There are clubs with physical exercise being involved, to playing cards. We all would like to do some of these clubs, but may be a little nervous. This is what makes Bridgewater so wonderful, you need not be an expert, you just have to want to learn and have a great time. Every group is welcoming and will help you develop the needed skills to really enjoy each experience. **So today** is your chance to look at all the groups, pick out some that interest you and contact the head person. **All the contact info is in the BEACON and on the Bridgewater website.** Get started looking forward and you will never look back.

## Estate Planning Seminar

by Keith Genzel – Morello Law Group

On Wednesday, January 24<sup>th</sup> at 6pm Bridgewater residents have an opportunity to learn about the importance of Estate Planning. Each person, regardless of age, net worth, employment or marital status should have a comprehensive estate plan in place. With a properly designed estate plan, clients can avoid the lengthy and expensive probate court process, while distributing their hard-earned assets to their beneficiaries as they wish. A comprehensive estate plan in most cases includes: Last Will and Testament, Revocable Living Trust, Durable Power of Attorney and a Patient Advocate Designation (Medical Power of Attorney). And in the case of real estate, our attorneys utilize Enhanced Life Estate Deeds (commonly known as "Lady Bird Deeds").

We will discuss each of these documents in more detail at the seminar. Food and beverages will be provided.

## Homeowner's Spotlight

by Ann Schimelpfenig

**Judy Schings**

Judy Schings doesn't let a lot of grass grow under her feet. "Gotta' go while I still can" seems to be the motto of a busy lady. She and her late husband, Don were native Detroiters. "Other than about a year spent in Chicago, we spent our growing up and working lives on the east side of Detroit, both of us working downtown," she says.

"I met Don at his brother's wedding in 1966. We were married in 1968. Don and I were married 45 years before he passed away in November 2013. We have no children but I try to spend a lot of time with local nieces/nephews and their children. They love swimming in our outdoor pool at the Lodge, eating out and going to movies."

Are you ready for this? Judy has a two-year associate's degree in Business Administration and was well equipped to work 32 years for the Federal Government, the last 20 for the IRS. "The agency everyone loves to hate," she says. "I retired at 49 and have never regretted that decision. That is when Don and I moved to Florida. I am enjoying traveling to places I never had the opportunity to travel to before-- Ireland, Iceland, France, Germany, Netherlands, Luxembourg, Belgium, Italy, Prague, Budapest and the Mississippi River. I hope to be able to continue traveling while my health allows it."

She loves playing cards and attending most of the Lifestyle (non sport) events, she says. "I am the Chair of the Lifestyle Committee and now am on the Neighborhood Board for the Parks. I also am Treasurer/Secretary of the Wine Club and am in charge of the Sassy Chicks widow's group."

The Schings lived in Sun City Center, FL, near Tampa, another Del Webb retirement community before Judy moved back to Michigan, and Bridgewater, in December 2015. "It is a great place for retirees to live, and for widows, too. It is Bridgewater Beacon

nice to have so many activities within our community, so you do not have to travel far to get to any of them."

## Holiday Night in Brownstown

by Ann Schimelpfenig

Some 25 plus Bridgewater chorus members, their spouses and friends provided caroling entertainment under space heaters at the Brownstown Community Center's "Holiday Night" on December 1<sup>st</sup>. More than 20 carols filled the air for two performances as Bridgewater carolers perched on bleachers and raised their voices to good cheer. Between sets they chugged hot chocolate and visited the decorated areas. They were there at the invitation of Debra Galik who organized the winter festival. Santa and Rudolf would have been proud. Later in the evening, BW residents Randy Darnell and Gerry Galik entertained the crowd with their music preceding the fireworks. Many BW residents were in attendance and the fireworks were spectacular. Plan on attending this event next year – it was a wonderful evening.

# Veteran's Day Medals

by Michael Finn

This past November, the annual Veteran's day lunch honored the World War II veterans in the community. In the December BEACON was a very nice article by Mark Hepner about the lunch and it motivated me to write an article myself. I had the great honor of presenting the World War II veterans with the World War II Victory medal. I suspect I got asked more for the fact that I fit into my uniform than that I was worthy of such an honor. It is very much an honor to present a comrade in arms a medal.

I thought it would be appropriate to provide some information about the medal. It is a general service award so that all branches of the service have the same medal. To be accurate I went to Air Force Instruction 36-2803, 18 December 2013, and to The Institute of Heraldry: Office of the Administrative Assistant to the Secretary of the Army, to get my information.

Obverse

Reverse

The medal is bronze and the Institute of Heraldry describes the obverse side as having "a figure of Liberation standing full length with head turned to dexter looking to the dawn of a new day, right foot resting on a war god's helmet with the hilt of a broken sword in the right hand and the broken blade in the left hand, the inscription "WORLD WAR II" placed immediately below the center". Because it is a victory medal, I had assumed the female figure on the medal was the Greek goddess Nike – goddess of victory. I was obviously wrong, Nike is a winged deity. Nike was the name given to the line of site anti-aircraft missiles that were deployed around the Detroit area in the 1950's and 1960's. There apparently is one in the park in Riverview, it looks like a Nike missile to me but I have not verified it.

The reverse side of the medal has the inscriptions "FREEDOM FROM FEAR AND WANT" and "FREEDOM OF SPEECH AND RELIGION" separated by a palm branch. It is encircled with the words Bridgewater Beacon

"UNITED STATES OF AMERICA 1941 1945". The four freedoms came from President Franklin Delano Roosevelt's speech to Congress on July 6, 1941. The historical context of that speech was a very strong isolationist opinion in the country and post-World War I Neutrality Laws in effect, which banned the sale of armaments to Europe. The speech was a rationale for the subsequent lend-lease bill and Roosevelt's plan to make America the "arsenal of democracy".

The medal was established by Congress on July 6, 1945. The eligibility for the medal is all members of the Armed Forces of the United States or the Government of the Philippine Islands who served on active duty at any time between 7 December 1941 and 31 December 1946, both dates inclusive. I suspect many veterans actually left the armed forces without actually receiving the medal, as the war wound down and it being established after victory in Europe. The act of military surrender in Europe was May 7, 1945 in Reims, France and on May 8, 1945 in Berlin, Germany. In Japan, the surrender was announced on August 15, 1945 and the official signing was on September 2, 1945 on the USS Missouri. While the war had ended by the fall of 1945, President Truman did not declare the end of hostilities until December 1946, and that is why the eligibility extends beyond the dates of surrender. This is not uncommon for similar service awards in other conflicts.
